

IEEE PAPER TEMPLATE INSTRUCTIONS

IMP INSTRUCTIONS:

1. **Make a copy of this word template of IEEE paper and then edit it accordingly. Keep the original doc as it is for your reference.**
2. There are a few **TITLES** in IEEE Paper format. Those in **BLACK** are mandatory and in **RED** are optional. You may have additional appropriate titles if required. Talk to your guide about this.
3. **Don't change the format and settings of this template. Directly type your ASE Project1 content in black color and then delete the one already present in the template in RED COLOR.**
4. **Note The whole text in RED COLOR will be replaced by the relevant writeup as applicable to your ASE project1 content in BLACK COLOR.**
5. **Please read the following IEEE paper format and instructions very carefully before you begin typing the paper. If you come across queries, ask your ASE2 guide about the same.**
6. **While writing author's name the first name must be your ASE project2 guide name followed by group members. Department and Institute Affiliation mentioned just below the author names mentioned in BLACK COLOR must be retained as it is.**
7. **The structure of a research paper must have at least the 11 points as mentioned in the document STRUCTURE OF A RESEARCH PAPER. However, there are many other sub points that are mentioned in this template are for your knowledge and reference. So read them carefully.**
8. **Strictly follow the instruction given for a Figure and Table as mentioned in the template.**
9. **Strictly follow the instructions and format given for writing References. Of course, remove all the content in YELLOW Background & instructions from the final draft of your project report.**
10. Under the title Introduction you have to write the introduction of your project work.
11. Under the title Literature Review, you have to take a brief account of Literature work (Research Work) done till date regarding your project topic. Edit the content given in **RED COLOR** under **Literature Review** appropriately as per your project topic. Here briefly mention in your own language, the latest work done till date related to your ASE project2 topic; already published in different research papers (Minimum 8 papers).
12. In IEEE Paper, you can cite a research journal paper, conference paper, patent, an article, a book, website etc wherever it is required to give credit to the work done by other researchers who has worked in this area. And ensure that they are properly mentioned in the reference section in the given format as provided in the template.
13. **IEEE Paper Must be approved by your ASE Project2 Guide.**
14. **Also ensure that your ASE Project2 must be complete in all respect which means its final working model, its IEEE research Paper (Checked and approved by your project guide) its Poster (Checked and approved by your project guide) by Wednesday, 03/06/2026 without fail.**
15. **You have to complete their final Online Submission through Google Form by, Wednesday, 8/06/2026. A separate notice for this online submission Link will be shared later at appropriate time.**
